

We would like to express our sincere thanks to HKTTA and ITTF for giving Jacky this unique opportunity to be part of this very special group of talented young table tennis players. In this World Hopes training camp, the coaching team was led by Dejan PAPIC and many other coaches. All of them were very helpful and tried to assist our players in all possible aspects during the whole week. With the support of these professional coaches and staff from both ITTF and the Werner Schlager Academy, we enjoyed a week of unforgettable experiences, and made many new friends. Though some of them don't speak the same language, communication was never a problem. Excellent spirit and cheering carried players through hard training at the camp and challenges at competitions. Besides, one of the greatest achievements for the week was to get know Werner Schlager. This World Champion taught Jacky a lot of techniques and added a big plus to the camp; all the players felt very honored and were extremely motivated.

With great memories: <http://www.youtube.com/watch?v=8G90arKe7LE>
